#### **Standard Features**

- Interchangeable between standard and fine crushing chambers
- Patented replaceable vee-seat inserts
- Fabricated welded base frame
- Bolt-on stop blocks
- Replaceable strut guards
- All roller bearing construction
- Alloy steel pinion shaft, spiral bevel ring and pinion gears
- Close running deep tapered grooved labyrinth seals
- Large unobstructed feed opening
- Bolt-on counterweights assure smooth operation
- Low pressure hydro-pneumatic tramp iron relief system with pump
- Long-traveling relief cylinders
- Heavy-duty bonnet
- Crusher sheave
- Quick release adjusting bolts
- Quick hydraulic shim adjustment
- Self-contained oil reservoir
- Direct-gear-drive lubrication oil pump with safety switch and warning horn
- Pre-start lubrication pump
- Immersion oil heater with thermostat

---

#### **Optional Equipment**

- Four-year extended warranty
- Remote control auto adjust (RC54II only)
- Remote control (RC54II only)
- V-belt drives
- Drive belt guards
- Electric motors and switch gear
- Crusher skid base
- Electrical control and wiring
- Portable plant mounted
- Fine chamber feed control device
- Wire basket hopper extension
